

Languages KS3 Curriculum Intent

Learning a language is a liberation from insularity and provides an opening to other cultures. It allows pupils to recognise similarities and celebrate differences between cultures. Our high-quality language education will foster pupils' curiosity and deepen their understanding of the world. Teaching Extensive Processing Instruction using listening and reading as modelling, with frequent opportunities to experiment and be successful in communication will enable pupils to express their ideas and thoughts in another language and to understand and respond to its speakers, both in speech and in writing. It will also provide opportunities for them to communicate for practical purposes, learn new ways of thinking and appreciate authentic music, literature and film. Language teaching at Bexhill Academy will provide the knowledge, attitudes, skills and habits for learning further languages, opening students' minds to the opportunities available to them and equipping them to be successful in the wider world.
